### Taking and using photographs & recordings

**Photographs to be displayed around school:**

We believe that it is important to celebrate the work of our pupils through displays around school and parents are very supportive of this. Photographs of children will often form part of these displays and may show their first name and we hope that all parents will be happy for this to happen. Full names will not be used. When photographs are taken down from displays children may be allowed to take them home. Alternatively they will be shredded. You will appreciate that it is very difficult to avoid children sometimes appearing in group photographs. However, should you wish individual photographs of your child not to be displayed please contact the Head Teacher and write a letter to us to this effect.

I have read and understand the above policies regarding use of photographs in school.

I give permission for my child's photograph to be used in school displays, publications and displayed in school.

**Photographs and recordings to be used on the school web site, school Twitter account and in the local press:**

We also believe that it is important to celebrate the work of our pupils through our web site, Twitter account and the local press. This offers an important opportunity to share our achievements with the local and wider community.

We are fully aware of potential concerns about photographs being available both via the Internet and in the local press. To this end we operate within guidelines agreed with the Local Authority and the Department of Education to minimise potential risks to our children. Written work by children may only be identified by first names and any pictures or recordings on our web site are not accompanied by names. Where the local press wish to feature photographs of individual pupils we will always seek to contact parents beforehand if possible.

We hope that parents would wish to support this by allowing their child's work or photographs of their child to continue to be included on our website, Twitter account and in press publicity. However, if you would prefer that the web site and the local press does not feature your child we will of course respect your wishes and ask that you contact the Head Teacher and write us a letter to this effect.

I have read and understand the above policies regarding use of photographs and recordings on the school Website, Twitter account and in the local press. I give permission for my child's photograph to be used on the school website and in the local press.

**Photographs & recordings taken at school events:**

There will be occasions during the school year where parents or carers may wish to take photographs or make a recording of their child taking part in a school activity. These activities will include school assemblies, school performances, sports events, school outings and educational visits. This may sometimes mean that your child appears in photographs/recordings alongside other children. Those taking photographs or recordings must do so on the understanding that these will always be used appropriately and not posted on any social media sites and you may be asked to sign to this effect before using a camera.

**School Information Management System (SIMS)**

This information along with a photograph of your child will be stored on our School Information Management System (SIMS).

I give permission for my child's photograph to be stored on the schools Information Management System (SIMS).

**Parental agreement for (name of child): \_\_\_\_\_**

I have read and understand the above policies regarding use of the internet and use of photographs and recordings in school. I give permission for my child's photograph to be used in school publications, displayed in school, on the school website, school Twitter account and in the local press and on the schools Information Management System (SIMS).

## **Computer safety**

As part of their learning we regularly need children to search for information from suitable web sites such as those of museums, libraries, news providers, the BBC and other educationally relevant web sites. In time pupils will also be able to exchange electronic mail with partner schools.

The school has prepared a detailed Internet Access Policy which is intended to help us make the most of the opportunities that the internet offers whilst minimising the possible risks. It includes the set of Rules for Responsible Internet Use which appear on the next page and which we expect children to keep to. A full copy of our Internet Access Policy is available in school for any parents wishing to read it.

To ensure that our pupils can access the internet as safely as possible we have purchased our internet access through One IT, which operates a filtering system to block access to inappropriate materials. In addition all our computer screens are in public view and internet access is supervised. We therefore believe that the advantages of giving the children supervised access to the internet greatly outweighs any dangers.

While the use of the internet is now an integral part of school life and children would miss out if they were unable to use it, some parents do still have concerns about it and we consider it good practice to offer all parents the opportunity of asking that their child does not take part in lessons where they need to search the internet if they are unhappy about our security arrangements.

To date all parents have supported us in allowing their children to access the internet under the above tight conditions and we hope very much that this will continue. However, if you do not wish your child to have access to the internet please make an appointment to discuss this with the Head teacher.
